

SCOUTS | TERRAIN

March 20, 2024

The latest release for Scouts | Terrain gets rolled into the system this week. Here is a rundown of what is included in the release.

Please Note: you may need to refresh and/or clear your browser cache to access these items.

Programming

- The much anticipated and requested functionality for adults to be able to edit concluded activities has now gone live.
 - Adult members will be able to see an additional clickable link in the 'Concluded activities' view in the Programming table
 - Adult members will see 'Edit' buttons throughout the page on a concluded activity, including at the base of the page
 - Adult members will be able to edit the concluded activity and can change all fields.
 - This will edit the achievements that **have not been awarded** (Milestones, OAS, Logbook).
 - Any achievements in **an awarded state will not be edited.**

Accessibility enhancements

- Work has been commenced to improve the accessibility of the system
 - Clickable icons can now be accessed by keyboard
 - Alternative text has been applied to all functional icons
 - PDF link icons have suitable text attached to indicate the link will open a PDF
 - Text added to calendar buttons
 - Month and year are now visible on narrow screens
 - Navigation bar has had some improvements to support keyboard users
 - OAS tiles on the skill tree pages have been adjusted to improve visual emphasis
 - Words are now in proper case, not all capital letters, to make easier to read
 - Empty links have been removed
 - Carousel buttons on Youth Basecamp are now appearing in the same place and have better contrast against the background
 - Navigation menu has greater visual contrast to focus styles to aid keyboard navigation
 - Navigation menu is now collapsable on all screen widths

- Confirmation dialog buttons have been given keyboard focus styles to assist keyboard users in navigating to and triggering them

The support and maintenance team are continuing to progress through reported issues and bugs, and further releases will continue to occur.

- They are presently investigating the issue that has been identified regarding Milestones and Baselineing/Benchmarking.
- As at 20/3/24 we do not know when a fix for this issue will be released.

The team looks forward to providing further updates when they occur.
