May 27, 2024

The latest release for Scouts | Terrain has now been rolled into the system. Here is a rundown of what is included in the release.

Please Note: you may need to refresh and/or clear your browser cache to access these items.

Approvals

- You can now track achievements that are to be awarded.
 - When a submission is approved, the achievement is set to 'Approved' rather than 'Awarded'.
 - This will apply for achievements from now (not previously entered)
- When the approvals table refreshes it will retain the sort order
- Historic approvals now have a column to show the action date
- Approvals table can now be converted into an easily printable version
- Additional information is now shown in the approvals table
 - For Outdoor Adventure Skills, the Area and Stream of the item
 - For Special Interest Areas, the Area is shown

Accessibility

- Work continues to enhance overall accessibility of the system
 - Record Achievement page the top row of the table for OAS and Additional awards is now frozen
 - SIA project and event planning can be selected and deselected using the keyboard
 - Preferred names (where they are imported from Branches) will now show where they exist
 - The Group life table now has a column to show additional awards

Programming

- You can now create a new event with no challenge area – events with this option will not contribute to milestone credits

The support and maintenance team are continuing to progress through reported issues and bugs, and further releases will continue to occur.

The team looks forward to providing further updates when they occur.
