

# SCOUTS | TERRAIN

## The latest news and information

10 March 2026

Work has continued on Scouts|Terrain to address user reported issues and continue to evolve the platform.

Updates released 10 March include

### Record Achievements

- Additional milestone credits can be imported after a member's baseline has been completed

### Achievement Pathways

- On the Outdoor Adventure Skills overview and each stage, the section a stage was completed in now shows as well as the status
- Updated
- Calculation of Peak Award progress has been updated for Venturers/Rovers who have completed OAS requirements
- Fixed an identified issue where the SIA page may not display content if member had previously viewed an SIA record belonging to another member

### Accessibility

- Text of error message if a user account is inactive on the login screen
- Visible focus styles added for OAS stream tiles on OAS overview page
- Fixed display of achievements in list where content may not properly align
- Keyboard focus improved on additional screens
  - Programming – participants and schedules
  - Login and support pages
  - Approvals screens
  - Profile switcher

### Programming

- Event schedules have been improved to show in order of start date/time and fix an issue where incorrect items were deleted
- Programming events made from proposals can now have start date in the past
