

SCOUTS | TERRAIN

The latest news and information

28 May 2026

Work has continued on Scouts|Terrain to address user reported issues and continue to evolve the platform. Updates released 28 May include:

Members

- Group / Unit Life
 - Updated to show list of units only while data display issue is resolved
 - Unit life shows option to manage achievement pathways only while data display is issue resolved
- Members
 - Baselining now requires a section to be selected prior to baselining a member rather than defaulting to Scout section

Achievement Pathways

- When a unit is deleted, pending submissions are revoked so they can be resubmitted into another unit
- Introduction to Scouting achieved once, can be viewed in all sections

Accessibility

- Update text and button behaviour on a number of screens

Programming

- Save button on step 3 now saves without returning to the programming page
